

Elivia Homes Regions

Our Land Team

Elivia Homes have an enviable reputation in their respective regions as award-winning housebuilders, committed to delivering bespoke and sustainable developments of up to 300 homes annually that customers aspire to live in.

We have forged successful relationships with land owners, planning authorities and local communities to deliver high quality, design led residential schemes in sought after locations.

We work closely with land agents and surveyors, and are actively seeking sites and development opportunities, whether or not they benefit from planning permission.

We also have a dedicated Strategic Land division that oversees opportunities across both regions. The team carefully considers the most appropriate route for each site; whether through market value options, promotion agreements, or hybrid agreements, ensuring we maximise value while aligning with landowners' objectives.
